Innovation in Home Oxygen Therapy

The new Inogen At Home is one of the lightest, quietest, and most energy-efficient 5 litres per minute continuous flow oxygen concentrators on the market today.

At approximately 8kg, it is half the weight of some other oxygen concentrators in use today. With a low noise level of 40 decibels at flow setting 2 and very low power consumption levels, the Inogen At Home is an efficient choice for your next home oxygen concentrator.

- ✓ **Energy Efficient**
- ✓ **Extremely Quiet**
- ✓ **One of the Lightest**

Weight	7.25 kg
Size	Width: 33cm Depth: 17.8cm Height: 42cm
Oxygen Flow	Continuous flow system Five flow settings from 1-5 litres per minute
Power Sensing	AC Power Supply 100-240V, 275W, 50-60Hz (auto sensing to allow worldwide use)
Noise Level	40 Decibels at flow setting 2
Warranty	3 year warranty
Operation	Simple control functions
Use	Designed for stationary use

Inogen Home Stationary Concentrator

50%
lower power consumption
versus other stationary concentrators

* The power consumption values based on labels on each oxygen concentrator.
 * Flow setting of 2 Litres per minute used for Inogen At Home power draw.
 * The electricity cost calculated based on using 20 hours per day of the concentrator
 * Actual costs may vary.
