

FreeStyle™ 5

NEW!
FAA-Approved

Life to the Fullest – Higher Capacity POC

FreeStyle™ 5 is a new, full-capacity portable oxygen concentrator (POC) from AirSep – the world's expert in oxygen generating technology.

The FreeStyle 5 POC offers 5 pulse setting options, which ensure that even your more challenging ambulatory O₂ patients can exercise and have access to the oxygen they need – all in a lightweight, compact, portable unit.

FreeStyle 5 is an attractive, contemporary, non medical-looking device whose pulse-flow delivery enables higher-flow patients to be as active as possible. It's the lightest POC in its class.

Easy to Use, Easy to Operate

The FreeStyle 5 concentrator is easy to use and easy to operate. This model provides patients with all the advantages of the standard FreeStyle unit, including proven reliability and durability in a slightly larger platform for greater capacity. In fact, FreeStyle 5 is the lightest higher-capacity POC on the market at 6.2 lbs (2.8 kg).

Multiple Power Options

FreeStyle 5 can be conveniently used and recharged simultaneously through a universal AC/DC power supply. This allows a patient to depend on the flexibility of what FreeStyle 5 offers, whenever and wherever the oxygen unit is used.

A lightweight AirBelt™ accessory, which was designed to be conveniently worn around the waist, ensures that extended battery time between recharges is possible.

Full 5 LPM equivalency for FreeStyle 5

This option can be marketed to patients, affording them the ability to maximize duration time on FreeStyle 5 for those occasions when AC or DC power is not readily available.

Air Travel with FreeStyle 5

Like all AirSep POCs, FreeStyle 5 is also FAA-approved* for air travel, and is perfect for onboard, in-flight use or during layovers between destinations.

*for US-based airlines or those departing from or landing in the US. AirSep advises to consult directly with international carriers for up-to-date regulations on POCs.

FreeStyle™ 5

SPECIFICATIONS

- Oxygen Concentration*:** 90% oxygen +5.5/-3% with 1-5 pulse settings; equivalent to continuous flow
- Dimensions:** 10.7 in. H x 6.6 in. W x 4.4 in. D
(27.2 cm H x 16.8 cm W x 11.2 cm D)
- Weight:** 6.2 lb (2.8 kg); 1.8 lb (.8 kg) optional AirBelt
- Power:**
AC Power: 100-240 VAC, 50-60 Hz, 2 amps
DC Power: 12-24 VDC, 15 amps max
Rechargeable, lithium battery
- Battery Duration:** 5 setting - 1 hour
4 setting - 1.25 hours
3 setting - 1.5 hours
2 setting - 2 hours
1 setting - 3 hours
- Optional AirBelt:** 5 setting - 2.5 hours
when combined with the internal battery 4 setting - 3 hours
3 setting - 3.5 hours
2 setting - 4.5 hours
1 setting - 7 hours
- Battery Recharge Time:** 3.25 hours
Optional AirBelt: 3 hours
- Battery Cycle Life:** Approximately 300 cycles, then 80% capacity or below
- Warm-up Time:** 2 minutes
- Audible Alarms and Visual Indicators:** Start-up
Pulse flow
Cannula disconnect
Low battery
Battery charge state
General malfunction
- Altitude:** Up to 12,000 ft (3,657.6 m)
(Higher altitudes may affect performance.)

*Based on an atmospheric pressure of 14.7 psia (101 kPa) at 70° F (21° C).

Note: Specifications subject to change without notice.

WARRANTY

FreeStyle 5 carries a three-year parts warranty. The internal battery, as well as AirBelt, is covered with a one-year warranty.

INTERNATIONAL APPROVALS

CE 0459
AirSep Corp. is ISO 9001:2008 and ISO 13485:2003-certified.

ORDERING INFORMATION

Additional accessories and power cord/voltage options available.

- AS077-1** Complete unit with US-style power cord
AS077-2 Complete unit with European-style power cord
AS077-3 Complete unit with Australian-style power cord
AS077-4 Complete unit with UK-style power cord
BT017-1 AirBelt with battery; universal power supply with US-style power cord
BT017-2 AirBelt with battery; universal power supply with European-style power cord
BT017-3 AirBelt with battery; universal power supply with Australian-style power cord
BT017-4 AirBelt with battery; universal power supply with UK-style power cord
