

Supa Cool R134a

Description

Supa Cool R134a is non-flammable and toxicologically safe.

R134a was introduced as the first refrigerant substitute to replace R12 in practically all applications.

Applications

- Household refrigerators
- Automobile air conditioners
- Heat pumps
- Centrifugal water chillers for air conditioning in buildings, for transport and commercial refrigeration

Hazard statement(s)

- Contains gas under pressure; may explode if heated.

Prevention statement(s)

- None allocated.

Response statement(s)

- None allocated.

Storage statement(s)

- Protect from sunlight. Store in a well-ventilated place.

Other hazards

- Asphyxiant. Effects are proportional to oxygen displacement.

Signal Word: Warning

UN No.: 3159

Hazard No.: 2TE

Chem Symbol: N/A

Supa Cool R134a

General Specifications

Specifications	12.5 Cyl.	22 Cyl.	65 Cyl.
Cylinder/Pack (101.325kPa @15°C) - kg	11.0	22.0	65.0
Water capacity per cylinder - L	11.0	22.0	65.0
Cylinder Colour	Light Blue		
Outlet Connection	Type 34		
Package Dimensions (H x W x D) - mm	260 x 404	310 x 505	377 x 859

Cylinder dimensions are approximate – variations may occur due to manufacturing tolerances. Height includes the valve.

Package Sizes Available

Typical Analysis

Chemical Name	Molecular Formula	Composition
1,1,1,2-Tetrafluoroethane	$C_2H_2F_4$	100%

Quality Assurance

Supagas Pty Ltd is committed to comply with the requirements of ISO 9001-2015 and to continually improve the effectiveness of our Quality Management System.

We review the Quality Management System and the quality policy on a regular basis to ensure effectiveness and suitability to the organisation.

Everyone at Supagas understands we must provide a safe environment for both our employees and the wider community. We are therefore committed to implement and maintain a continual improvement approach throughout the organisation whilst also meeting all applicable statutory and regulatory requirements.
